**Braemar Hills / Gleason Circle / St. Patrick's Lane Neighborhood
Roadway Reconstruction**

Dear Resident:

The following is a quick update of the project in your neighborhood:

Neighborhood Reconstruction Schedule

All sump drain services have been completed in the neighborhood. If you have a sump pump or a roof drain discharging in your front yard please give me a call so we can make sure you are adhering to City Code. According to City Code, all residents with sump pumps and roof drains who discharge at the curb or within the right-of-way should use this service pipe.

Beginning next week Northwest Asphalt will be removing and replacing concrete curb and gutter pieces on Tupa Drive, Tupa Circle and Scotia Drive. If this work affects you, a notice will be placed on your front door. Some residents will not be able to access their driveway for four to five days while the concrete cures. Detailed notices pertaining to parking will be distributed. If you have any special needs or activities scheduled that week, please let me know so we can try to accommodate you.

The contractor will not work July 4-5, except for the water truck to control dust and Northwest Asphalt will be on site Friday to give residents access back into their driveways on St. Patricks Lane and Gleason Circle.

Communications

For detailed information about the project, visit www.EdinaMN.gov/construction_braemar_gleason_stpatricks. The City of Edina and Northwest Asphalt thank you for your patience and cooperation throughout the project.

Regards,
